## Projects

FEBRUARY 2024 - FEBRUARY 2024

### POKEDEX - (*TSX, TS, CSS, REACT, TAILWIND, POSTMAN*)

- A project that required me to search, display, and favorite gen 1 to 5 pokemon
- Used and navigated through a complex Pokemon API to get display the correct data
- Made it fully responsive in Mobile, Tablet, and Desktop screen sizes
- Made a prototype and then built my website based on the prototype

JANUARY 2024 - JANUARY 2024

### RPSLS - (*HTML, CSS, JAVASCRIPT, TAILWIND, POSTMAN*)

- A project that required me to make a rock, paper, scissor, lizard, and spock game
- 1v1 mode against a player
- 1vCPU mode against a robot
- Single page JavaScript application

DECEMBER 2023 - DECEMBER 2023

### WEATHER APP - (*HTML, CSS, JAVASCRIPT, BOOTSTRAP, POSTMAN*)

- A weather app the showed the current and next 5 day forecast for any city in the world
- Use the weather API
- Able to search and favorite a city and had it saved to local storage
- Gave daily standups that reported my progress and my goals for the day

## Education

SEPTEMBER 2023 - SEPTEMBER 2024

### CodeStack Academy - *Stockton, California*

A 12 month immersive CodeStack Academy Program course allows students to gain real-world skills to become a software developer.
